

Hélder Pereira is a Biology and Geology Teacher at the Escola Secundária de Loulé (Portugal). Since 2005 he is overseeing the running of his School's Earth and Space Sciences Club. He has participated alongside his students in several National and International Science Fairs (e.g. Mostra Nacional de Ciência, Congresso Cientistas em Acção, Science on Stage, Ciencia en Acción). Several projects presented during those events have been awarded. In 2010 he received the award of best poster presented in the session under the theme Education during the «VIII Congresso Nacional de Geologia». In 2008 participated in the program «Teachers At Sea» aboard the R/V Marion Dufresne during the cruise MD-168 AMOCINT. In 2009 participated as an educator in the «School of Rock» aboard the D/V JOIDES Resolution during IODP Expedition 321-T. Aboard the same ship, in 2011-2012, he served as Education Officer for IODP Expedition 339. He participated in the cruise EMEPC/PEPC/Luso/2013 aboard the NRP Alm. Gago Coutinho. He is currently involved in several projects aiming the popularization and divulgation of science.
